Webinars

Your Powerful Tool for Generating Quality Sales Leads

Budget constraints and increasingly hectic work schedules can often prohibit today’s health and safety decision makers from physically attending seminars, conferences and expositions. Instead, it is important that today’s health and safety product and service vendors seek innovative and cost-effective ways to disseminate information and engage prospects and clients in a timely manner to spotlight new technologies, product launches, strategic partnerships and more.

That’s why Occupational Health & Safety offers a turnkey webinar solution that allows health & safety products marketers to tap into our expertise and expansive market reach and drive valuable customer leads.

Vendor Webinars
The unique presentation of a webinar forum allows clients to deliver information and engage participants in a timely, cost-effective manner. Whether at home or on the road, participants can view presentations through their web browsers while simultaneously listening to the audio. Discussions can take place in real time, and your audience of health and safety buyers are encouraged to ask presenters questions. You provide the speaker, the topic, and the presentation and collect all the leads.

Editorial Webinars
In addition to single-sponsored customer-supplied webinars, OH&S offers the opportunity for companies to co-sponsor time-sensitive editorial topical webinars. This variation of the popular webinar medium allows a company to sponsor for a fraction of the cost of a sole-sponsored webinar. Plus, the webinar is promoted in the very same fashion as a sole-sponsored webinar.

Sponsorship
• Registration development and collection
• Comprehensive event promotion on our websites and through social media
• Logo and sponsorship acknowledged in promotions to 65,000* targeted OH&S eNews subscribers
• Reminder eMails prior to webinar
• 30-day webinar registration link on ohsonline.com’s home page
• Creation of custom-designed user interface
• Audio delivery and presentation coordination
• Q&A at the end of the presentation
• Post-event participant data and complete contact info
• Three-month online archiving for on-demand access
