

OH&S Announces 2020 New Product of the Year Award Winners

DALLAS, September 15, 2020 – Twenty-six companies, including multiple winners Blackline Safety, Geroline Inc., and ZOLL Medical, were honored today for winning *Occupational Health & Safety* magazine’s 12th annual New Product of the Year contest. Winners will be recognized with awards and in the November/December issue of *Occupational Health & Safety* magazine. They are also featured on *Occupational Health & Safety*’s industry-leading website, ohsonline.com.

This year’s contest attracted entries in 26 award categories, with an independent panel of highly qualified judges choosing the winners.

“OH&S has been celebrating innovation and products optimized to keep workers safe for over 10 years. This year, safety products and services are being recognized on a global scale, bringing greater awareness to the important work completed by manufacturers in the industry,” OH&S Editor Sydney Shepard said. “This year we are recognizing outstanding products in 26 award categories, including a new category for products created to protect against infectious diseases. Now more than ever, it is of the utmost importance to keep workers and employees safe from emerging and existing workplace hazards.”

To be eligible for the 2020 awards, products must have been introduced to the market between July 2019 and July 2020. The 2020 award winners are:

New Pig: PIG Social Distancing Floor Sign

Vision Protection

Gateway Safety: Black Venom Face Protection

“There were a number of great products submitted for the New Product of the Year Awards,” commented judge Greg Zigulis, president of Sixth Sense Safety Solutions. “Each year the products and their features just seem to get better. There were also some interesting products that were entirely new conceptually and responsive to the COVID-19 pandemic.”

“Safety is all about the best,” added judge Linda Sherrard, MS, CSP, Safety Consultant II at North Carolina Department of Public Safety. “We train, we plan and we, as safety leadership, purchase the very best equipment, PPE and related resources. This year’s *OH&S* NPOY provides just that—thoughtful, timely products that will enhance your program and improve workplace safety, often at the fraction of the cost of one on-the-job injury. 2020 has an exceptional group of new products in many categories that make selection easier than ever—delivering you some of the best the industry has to offer.”

Information on the 2021 *Occupational Health & Safety* New Product of the Year contest will be available on ohsonline.com in the spring.
