

OH&S Announces 2022 New Product of the Year Award Winners

DALLAS, July 28, 2022 – Twenty-six companies, including multiple winners Andax Industries, Guardhat, Honeywell, Mechanix Wear, and MSA Safety, were selected as winners in *Occupational Health & Safety* magazine’s 14th annual New Product of the Year contest. Winners will be recognized with awards and in the November/December issue of *Occupational Health & Safety* magazine. They are also featured on *Occupational Health & Safety*’s industry-leading website, ohsonline.com.

This year’s contest attracted entries in 31 award categories, with an independent panel of highly qualified judges choosing the winners.

“The world is entering into the new phase of the pandemic, one where supply chain shortages and economic challenges threaten innovation. However, it appears these hurdles are not changing the way the safety industry continues to show up with new products and solutions that keep employees safe,” *Occupational Health & Safety* editor Sydney Shepard said. “Each year, the New Product of the Year award program shines a light on the future of the industry, and after seeing the winners of this year’s contest, it’s easy to say that the future is a bright one indeed.”

To be eligible for the 2022 awards, products must have been introduced to the market between July 2021 and July 2022. The 2022 award winners are:

EHS Software

Benchmark Digital Partners LLC: Benchmark ESG Med Data

Electrical Safety

Signage & Identification

Andax Industries: Transformer Containment Bag | Bag it 'n Tag it

Transportation Safety

Andax Industries: Big Containment Pac

Vision Protection

Gateway Safety: SteelyBlues Metal Detectable Safety Eyewear

Wearable Devices

MSA Safety: MSA ALTAIR io 4 Gas Detection Wearable

“This year’s contest brought in a wide range of entries that spanned several categories, however *OH&S* is proud to award companies for products in the PPE for Women category for the first time ever,” Shepard said. “As the industry continues to see a more diverse workforce hired year after year, it is particularly exciting to see products and solutions designed specifically to keep women safe. I am intrigued to see how companies will pursue more equitable and diverse personal protective equipment in the future.”

Information on the 2023 *Occupational Health & Safety* New Product of the Year contest will be available on ohsonline.com in the spring.
