

## **OH&S Announces 2023 New Product of the Year Award Winners**

DALLAS, August 14, 2023 – Twenty-five companies were selected as winners in *Occupational Health & Safety* magazine’s 15th annual New Product of the Year contest. Top winners included Shurtape Technologies with four wins and Andax Industries, Mechanix Wear, and Protective Industrial Products with three wins each.

Winners will be recognized with awards and in the November/December issue of *Occupational Health & Safety* magazine. They are also featured on *Occupational Health & Safety*’s industry-leading website, ohsonline.com.

This year’s contest attracted the second highest number of entries in the history of the program. Outstanding products were awarded in 35 award categories, with an independent panel of highly qualified judges choosing the winners.

“I’ve been involved with other awards programs in my career, but the turnout for this year’s *OH&S* New Product of the Year Award was really gratifying to see,” *Occupational Health & Safety* publisher and executive editor David Kopf said. “It just goes to show that this is a vibrant, active industry full of vendors that are dedicated to releasing new offerings that help keep workers safe.”

To be eligible for the 2023 awards, products must have been introduced to the market between July 2022 and July 2023. The 2023 award winners are:

### Asset Tracking/Management

#### Vision Protection

Radians: THRAXUS ELITE

#### Wearable Devices

Bodytrak: Bodytrak 01

#### Winter Hazards

Protective Industrial Products: Bisley Extreme Cold Weather Coverall

“I have to give a big thanks to our judges, a collection of independent safety experts, who share their expertise and experience to score our entries,” *Occupational Health & Safety*’s Kopf added. “The nature of their work means that they have to stay anonymous, but their help and contributions are absolutely indispensable.”

Information on the 2024 *Occupational Health & Safety* New Product of the Year contest will be available on [ohsonline.com](http://ohsonline.com) in the spring. *Occupational Health & Safety* also hosts annual Industrial Hygiene Awards. That program will be open for 2024 submissions in early 2024.
